Hello, we are the INGA solidarity group. We want to support people in deportation detention.

We are independent and do not belong to any state institution. Are you in prison and at risk of deportation? We would like to stand by your side. We do this privately and we are not paid for it. If you want to, we can visit you.

You can contact us via our telephone number or ask for us at the pastoral care (Seelsorge). We can put you in touch with relatives and friends and bring things with us, such as clothes or snacks and organise phone cards.

We only speak German and English, if you need another language, we will try to organise a translation.
